

13th July 2022

Subject: **Letter of Intent – Management Systems Certification**

To Whom It May Concern:

This is to confirm that **ACI Global – ABN 68 110 019 460** of **12 Yasawa Close, Astonfield NSW 2323** has committed to development and implementation of a management system to *ISO9001:2015, ISO14001:2015 and ISO45001:2018 and ISO 21001:2018 standards*, and has engaged Adaptive Certifications (JAS-ANZ accreditation #M25720721AG) to carry out third-party assessment and certification of the management system.

The scope of certification is:

The provision of leadership development of personnel by providing ongoing competency-based ISO learning and ISO personal certification outcomes for professionals working within a wide range of industries and organisations.

An initial review of the management system has been carried out, and it has been determined ACI Global is ready to proceed with certification and can expect to be certified by August 2022.

As ISO 21001:2018 is currently a non-accredited standard in the Australian marketplace, the requirements of this standard will be considered as part of the ISO 9001:2015 audit, as ACI Global claims compliance as part of its product and service provision. A separate non-accredited certificate of compliance will be issued upon successful review. ACI Global has also committed to the achievement of accredited ISO 21001:2018 certification once it becomes available in the Australian market.

If you have any queries, please do not hesitate to contact us for further clarification or information.

Regards,

Ryan Chapman
